

CS Adhunik Desk

It gives me unspeakable joy and at the same time an honor to share through this very significant connecting bridge among all that is the "Nav Urja". My almost 9 years of association with this gem of a company APNRL was full of testing yet enriching experiences. I am extremely content to share that our Company is having an impeccable record of Corporate Compliances along with that, the diversity of the Decision-Making Board and Top Management makes our company one of the finest organizations when it comes of the spirit of Corporate Governance.

Driven by the mantra "when going gets tough, the tough gets going", last few years we did face a lot of challenging situations and we endured enough to still stand tall. We not only overcame all those situations, perhaps we are still in process, but we are definitely looking at a glorious future.

A wise man once said "character is not built during crises, its exhibited" and that's what each one of us displayed over a period of time in the Company and that's what we all will continue to do. The way we do one thing, we do everything. It's not the work which decides the outcome, it's us.

Any successful organization not only runs with money, method, material and men but the also the degree of effective result-oriented communication and synchronization among them.

Today I would like to emphasize on three things. One, the effective communication, second the Turn Around Time (TAT) for any given task and third is No Procrastination. It does not matter how much we have, what matter is what we do with what we have.

Wishing you all good times ahead.
