

## Head Purchase Speak

**Commitment**, discipline, willingness to work and honesty are the four pillars, which creates persona and image of an individual or the company. I am very glad to connect through 'Nav Urja' to share my views and opinions with APNRL family.

The last two years were the biggest setbacks for the entire world but I must mention that APNRL family has indeed worked hard by taking control over critical situation smartly.

Many challenges will come in future also but ability to overcome these challenges are sign of winners and I have outlined three priorities to stay focused on it to be successful and be victor.

First, the safety, in terms of plant and health is the paramount concern for all of us. We can only make positive contributions and live our purpose, values if we stay healthy, and keep ourselves safe.

Second, business continuity is key. We need to focus our efforts on the responsibilities awarded to each member of the family. Their heartfelt small effort will make big impact in the development of the plant or Nation.

Third – Extend help/assistance you can – please provide a helping hands to the person who needs it whether this is official or personal. Because help giver will never stay empty hands, they will get help spontaneously. It is part of our values and people will remember.

Significantly, I am proud and inspired by the way our company has risen to the challenges - with flexibility, resilience, courage – and a caring heart. Let's work together – across all parts of the business - to keep going.

*Wishing you all good times ahead.*
